

# The Bonsai Towns of Kinashi & Kokubunji are going to hold their largest Bonsai event to date.

This year the “Kinashi Bonsai Ueki Festival” and the “Kokubunji Green Festival” will be held on the same day. Therefore the two events will be collectively known as “Bonsai Week in Takamatsu”.

Bonsai classes and demonstrations at the event and festival will be streamed live online all over the world from Takamatsu. (**Please see the URL below**)

We are going to have an international exchange event through Bonsai with St. Petersburg, the sister city of Takamatsu. Local primary students along with primary school students from St. Petersburg will participate in the event.
